DETAILED ACTION

Remarks

1. Claims 1, 2, 5, 8-10 are pending this office action. Claims 3, 4, 6, 7, and 11-17 have been cancelled.

Specification

2. Claim 1 is objected to because of the following informalities: The scope of the claim is much broader than what is recited in the disclosure. The disclosure recites a "power start state" and a "power stop state" but does not recite a "first state" and a "second state", which are much broader in scope. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 2, 5, and 8-10 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a "power supply state" and a "power stop state", does not reasonably provide enablement for a "first state" and a "second state". The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. It is unclear to the examiner if the "first state" and "second state" are positions into

which the fuel cell must physically move or if the "states" are a state of operation or power supply mode.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 1 recites the limitation "the fixed surface" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Response to Arguments

7. Applicant's arguments, see page 8, filed May 1, 2006, with respect to the filing date of the Nakakubo reference have been fully considered and are persuasive. The rejection of Claims 1-7 and 9-17 has been withdrawn. However, upon further review, a rejection under 35 U.S.C. 112, first paragraph, has been made based upon scope of enablement on Claims 1, 2, 5 and 8-10.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened

Art Unit: 1745

statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
